

Labour Hire & Shutdown Services

GHS Solutions labour hire and shutdown service is ready to deliver upon your needs, be responsive to any request and will reliably provide the right employees on time, meeting budget expectations. Unlike traditional labour hire companies, our expert human resources team reviews potential employee's cultural fit, capacity to work in a team environment, attitude to safety, experience, skills, qualifications and competencies to ensure the GHS Solutions team are ready for the rigors of site and shutdown work. Our extensive multidisciplinary shutdown labour experience combined with our accredited HSEQ system of management means we can efficiently select employees to meet specific site or shutdown needs. Should additional skills, training or inductions be required GHS Solutions will work with you to meet these.

GHS Solutions shutdown teams can be mobilised for site or shutdown services ranging from one day to long term maintenance. Our team includes the following labour categories:

- /// Project Managers
- /// Planners
- /// Supervisors
- /// Safety Advisors
- /// Boilermakers
- /// Welders
- /// Fitters
- /// Poly Fabricators
- /// Scaffolders
- /// Riggers
- /// Trades Assistants
- /// Labourers
